Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

~~I do not think it is fair to charge EVERYBODY \$1.00 regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.~~

This phone is for emergencies when I am on the road.  
I disconnected my last phone when it went from \$ 9.99 to \$ 18.00 plus.  
I am a senior who will get rid of this phone if cost go up.  
I am on a fix income. NO MORE NEW TAXES.

If you want to tax more, how about the 5th and 6th generation of, welfare and public housing bums that laugh at us working middle class people that are taxed to death.....
